Course Description

This course aims to introduce engineering students to the global context in which engineers are asked to operate in the 21st century. The course also introduces students to system dynamics tools and other decision-making tools (network analysis,

The web and the literature are rich in articles, videos, and websites covering the topics mentioned below. Students are expected to read three to four articles (or book chapters) before each class, work and learn with their peers, and present their findings in class.

Software:

You are asked to purchase the student version of the

Information about university policies, [reporting options](#), and support resources can be found on the [OIEC website](#).

Please know that faculty and graduate instructors have a responsibility to inform OIEC when they are made aware of incidents of sexual misconduct, dating, domestic violence, stalking, discrimination, harassment and/or related retaliation to ensure that individuals impacted receive information about their rights, support resources, and reporting options. To learn more about reporting and support options for a variety of concerns, visit [Don't Ignore It](#).

Religious Holidays

Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments, or required attendance. See the [campus policy regarding religious observances](#) for full details.
